Mike

Started my new job at BABTAC today, just thought I'd let you know how I got on with my first day and to thank both you and Richard.

Really enjoyed first day, people are very nice and getting on really well with work they've assigned to me. Impressed a couple of people also today, which was good. I feel I'm going to get on very well here, not only with the work but the people to.

I just wanted to let you know that I appreciate how quickly you were able to get me an interview with them.

Many thanks

Alexandria Rich
